From the back cover of the case that holds the set, here is an inspiring quote from Grandfather Joseph:

'Try chanting as a group until you have gone back to heal all of the ancestors back in time.

Try 100,000,000 years and forward the same way.

We can heal the future before it happens for the future generations.'

This cd set gives access to many of the sound teachings that Joseph Rael, Beautiful Painted Arrow, has given to us. It is thanks to the House of Mica Sound Chamber group that the cassettes tapes of these recordings were collected and transferred to cd.

All these audio tapes are full of precious teachings which are given an extra dimension, or more, through the voice of our Grandfather.

Many of these recordings, such as the **Sounds of the Face** and the **Sounds of the Elements**, were made between **1987** and **1989** which means that much of this body of work predates the appearance of Joseph's work in print.

Brought up in a culture where the extraordinary was ordinary Joseph Rael, Beautiful Painted Arrow, explains the way that fasting, dancing, and chanting can help people to see beyond everyday reality into the spirit realms.

The tapes end with a meditation chant created especially for this recording. The chant carries the listener into an altered state of awareness where the non-verbal power of the teachings can be fully appreciated.
